

STACK RANKED

PRINT-AND-PLAY CARD SHEETS

How to assemble this deck

Print single-sided on US Letter (8.5" x 11") paper at 100% scale / "Actual Size" (not "Fit to Page"), so cards come out at true poker size, 2.5" x 3.5". Cut along the colored border on each card. For durability, print on cardstock and slide into standard poker-sized card sleeves (with an opaque sleeve back, or any solid-color card as a backer, since these sheets are front-only).

What's on each sheet

Every sheet is labeled at the bottom with its category and a "sheet X of Y" counter. Categories never share a sheet, so you can print and cut one category at a time. Cards that need multiple physical copies (Tier 1 Skill/Tool cards and Early Project cards) are already duplicated here — print every sheet once and you'll have the complete deck. Key resources (Career Capital, Political Capital, Burnout, Productivity, Compliance Badges, Action Points) are bolded with an icon wherever they appear.

Deck contents (137 physical cards)

42 Skill/Tool — 37 Project — 30 Office Chaos — 12 Mandatory Training — 16 Management Style. Matches the Card Reference Appendix in the main rulebook — see that document for full rules on how each card is used.
